

Rechargeable Electric Pump

ENGLISH

ENGLISH

Thanks for choosing our electric portable inflator. Please read User Guide carefully before using it.

This product can be applied to cars, bicycles, motorbikes, balls, inflatable toys, etc. Digital intelligent type can gauge to measure the tire pressure and be used as flashlight; the safety hammer type can also break the glass to escape in case of emergency.

Operation

1. Non-rechargeable pump's power can be supplied by connecting car charger with cigarette lighter or home adaptor. Rechargeable inflator should be well charged in advance
2. Connect one end of air tube to inflator, plug the other end to tire valve core. For French valve, it should be connected to the French adaptor at first.
3. Press "UNIT" button to set pressure on activated screen.
4. Press "+" & "-" to adjust the target pressure.
5. Press power switch for inflating.
6. Repeatedly press "UNIT" button, the ATMOS will transform to PSI, BAR, KPA, or kg/cm². The screen will show the real data.
7. "+" & "-" are preset keys. Click it for adjusting the target pressure slowly, long press for adjusting the target pressure quickly (notes: ordinary bicycle is 30-50PSI, mountain bike is 40-60PSI, road bicycle is 80-120PSI, cars 30-40PSI). Setting will be completed after the screen flicker for 4 seconds, Or press the "UNIT" button to finish setting. Then press power switch for inflating.
8. When inflate to the set point, digital intelligent inflator will stop inflating automatically. And press power switch, LED light will turn off.
9. After inflation, pull out the tube from valve core and from inflator. Left it in storage of inflator and keep dry.

Product Structure

1. Inflator
2. "+" "-" preset key
3. LCD
4. "UNIT" key
5. Power switch
6. Charging port
7. Air tube
8. Home adaptor
9. Car charger

Technical Parameters

1. Input: AC 230V/50Hz, cigarette lighter 12V
2. Charge efficiency: Only take 3 minute to fill 26*1.95 inch bicycle tire to 50 psi.
3. Max inflating pressure: 150psi
4. Operation temperature: -20°C ~+60°C

Note

- a) Children are forbidden to use this inflator. Please keep it away from children.
- b) Do not use it at inflammable and explosive areas. (eg. Oil station)

- c) To keep the products' long lifetime, please have it rest for 8 min in every 8 min inflating time.
